

## **Number of Sleeping Beds:**

**Sheep Wagon** has 1 full. **Boarding House** has 2 separate rooms with a queen and a single in each. **Brothel** has 2 queens, **Bordello** 2 queens, **Dugout** 2 queens, **Log Cabin** 2 queens, **Cordwood** 2 queens, **Sod House** 1 queen, **Teepee** has a full water bed, **Indian Bark Lodge** has 3 full, **Jail** has 2 rooms with a full and single in 1 and a full in the other, **Church** has 1 room as a quest room with a queen. I used the church as living quarters but if you used it as a quest house you could get 1 - 2 more rooms.

## **Well:**

There is a well which pumps 30 gallons a minute. Because this would be used as a quest ranch and could have everyone in the shower at once, I have a very fabulous pressure tanks and designed water system. The water was tested every year when I was there. No problems.

## **Heat:**

There is a hot water heater in every unit.

## **Septic:**

There are 4 septic systems. They were approved by the county. I think I just needed a permit from the county to operate. They rate it like a B&B.
